Advanced Trauma Training Belgium 2013

**A 2 x 4 day trainingscourse for deeping your self-relationship
and interrelational healing skills**

This 2 x four day training course builds on the Foundational Trauma Training of Aptitude Academy. It aims at deepening and refining the trauma treatment skills already acquired. Here we are working with trauma constellations, refinement of perception, deepen into qualities of presence, stillness, explore the use of tones, and use non-dual being qualities to let the process guide us.

The course is designed to meet the actual needs of the participants, offers space for personal processes and focuses on touching the untouchable in us. The deepening of our self-relationship can open inner spaciousness that participants describe as sacredness. Spirituality at that level can no longer be denied and more often than not leads you into a personal space of deep reunion with your own roots, your deepest source.

The intention of this course is to take you beyond 'techniques' and to help your treatment skills deepen into your own truth, your own personal experience and your own presence with the 'client' at an ever subtler level. This course is not about doing anything but about inviting what wants to present itself at a particular moment in time. The course is about attitude so that healing can arise by itself out of emptiness, nothingness and silence.

Participants are expected to apply this work in their daily practice and should be ready to submit supervision questions or cases.

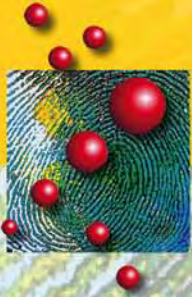

Presenters:

Andrea Martha Wandel, co-founder of Aptitude Academy, fully-licensed health practitioner since 1992. After having taught Autonomic Body Screening, Psychological Field Screening and „health” to health professionals for many years her focus is now on Trauma-Work, Neurotherapy, Homeopathy, Systemic Constellations Work, Craniosacral Biodynamics and Neurophysiological Development. Currently, Andrea

offers teaching seminars in the Netherlands, Germany, Belgium, Switzerland and South Africa. Andrea is known as a deeply appreciative person whose astounding

Aptitude-Academy

sensitivity, well-balanced compassion and sometimes tough love generates self-healing and personal progress.

Johannes Benedikt Schmidt, Founder of Aptitude-Academy, M. A., Psychology, M.A., Human Development, trained in Behavior Therapy, Hypnotherapy, Constructivist-Systemic Work, Constellation Work, Trauma Work, Craniosacral Biodynamics, and currently in training for Neurophysiological Development. Johannes is a doctoral student at Fielding Graduate University, Santa Barbara. Johannes teaches in Europe and offers seminars in Systemic Constellation Work, Trauma-Work, Systemic Communication, and diverse personal change

processes; Author of the book *Inner Navigation – Traumahealing and constellational processwork as a navigational tool for the evolution of your true self.*
